## **Liv Diagnostics participates at SwissNordicBio in Zürich the 8th of February.**

Swiss Nordic Bio in Zurich is a high-level partnering and investor event where Swiss and Nordic biotech startups, pharmaceutical companies and investors meet. Swiss Nordic Bio carries 12 years of tradition, previously Swiss Scandinavian Bio-Business Seminar, and is organised by the Nordic countries in cooperation with Swiss partners.

The conference has a broad focus within biotech and pharma (drug development, drug delivery, bio materials, medical device, diagnostics, contract manufacturing, CRO, etc.) and gathers small, early stage companies as well as global, commercial corporations.
